MOTOMAN MYS-SERIES

Picking, Packing & Handling with the MYS-series

The robust Scara-robots of the MOTOMAN MYS-series feature a wide motion range due to its compact design. They are particularly suitable for application when high speed and accuracy is required, for example picking and packing, dispensing and feeding. Small

interference contours allow the robots working together in confined spaces. Internal cabling enables a reliable workflow and saves extensive maintenance. These robots are driven by the high-performance MOTOMAN FS100 controller.

KEY BENEFITS

- Fast, powerful and reliable
- Wide motion range
- Compact and robust design
- Internal cabling
- High repeatability and accuracy
- Ideal for applications in confined spaces
- Easy integration and high dynamics
- Easy maintenance

Controlled by
FS100
